In Re: Nexus Pipeline

Dear Mr. Berroteran,

In reference to the above captioned subject, the Board of Lake Township Trustees has some concerns. While we do not oppose the proposed pipeline and all the positive things it brings to the State of Ohio and its communities, we oppose the proposed location of the Nexus pipeline. We urge Spectra to consider another location for the pipeline outside of Lake Township which impacts less populated areas.

Every property owner impacted by the pipeline that we have encountered is opposed to the pipeline and gravely concerned about its effect on their properties and their safety. We are aware that other proposed pipelines have routes that do not impact heavily populated areas, such as Lake Township and would ask that Spectra pursue a similar path for its Nexus Pipeline.

Thanking you in advance for your consideration in this matter.

Respectfully,

On Behalf of the  
BOARD OF LAKE TOWNSHIP TRUSTEES ♦

Galen Stoll, President
